or call the library for additional updates on hours.

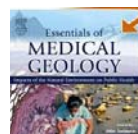

New & Noteworthy Books

Developing Cultural Competence in Physical Therapy Practice/ Lattanzi, B. Jill. F.A. Davis Company, 2006. RM 705 .L38 2006.

Topics include intro to study of culture, self-exploration of culture, information on specific cultural groups, and resources for the PT practitioner. The goal is to develop cultural competency and understanding of cultural impact on communication, healthcare beliefs and practices, and physical therapy interventions.

Essentials of medical geology : impacts of the natural environment on public health/ Selinus, Olle. Elsevier Academic Press, 2005.

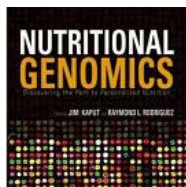

RA 566 .E84 2005.
Contributed by over 60 experts, this large reference reviews sources of elements that impact health, details the geological processes influencing human exposure to radon, arsenic, fluorine, selenium and iodine, and finally provides analytical approaches to environmental research.

From Silence to Voice: What Nurses Know and Must Communicate to the Public 2nd Ed. / Buresh, Bernice. Bernice

Buresh and Suzanne Gordon, 2006. RT 42 .B83 2006.

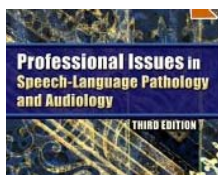

Topics include how to get nurses' research, stories, expert opinions, and insights into the media such as the Internet, radio, TV.

Nutritional Genomics: Discovering the Path to Personalized Nutrition /

edited by Kaput, Jim. John Wiley & Sons Inc, 2006. RA 784 .N855 2006.

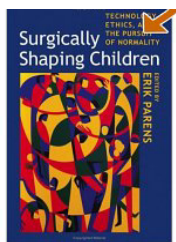

Contributed by several authors, this manual covers topics such as molecular mechanisms of longevity regulation, calorie restriction mechanisms, green tea polyphenols and soy peptides in cancer prevention, maternal nutrition/fetal gene expression, and optimal diets.

Professional Issues in Speech-Language Pathology and Audiology 3rd Ed. / Lubinski,

Rosemary. Thomson Delmar Learning, 2007. RC 428.5 .P755 2007.

Topics include latest guidelines such as Standards of Clinical Competency and ASHA competencies, assessment & treatment of specific population, and issues related to advocacy, education, professional organizations, ethics, and legal considerations.

Surgically Shaping Children : Technology, Ethics, and the Pursuit of Normality / Parens,

Erik. Johns Hopkins University Press, 2006. RD137 .S846 2006.

This book explores the ethical questions arising when surgery and technology are used to make children more normal. Topics include prenatal testing, disability rights, selective abortions, and more interwoven into personal narratives.

What To Eat / Nestle, Marion. North Point Press, 2006. RA784 .N46 2006.

Nestle walks readers through supermarket sections such as produce, meat, fish, dairy, packaged foods, and bottled waters. Along the way, she decodes labels, clarifies nutritional claims, and explores issues like the effects of food production on the environment, the way pricing works, and additives' effect on nutrition.

New Books List

These books have been added recently to the Health Professions Library's collection. Please come visit us to check these titles out.
